USATE LE BUONE MANIGLIE

Progettare
e costruire in Italia
le maniglie
più belle al mondo.

Designing and
manufacturing in Italy
the most beautiful
handles in the world.

A Family Company.

sempre vicini a te

Proprio come una famiglia accudisce i suoi membri con amore e dedizione, così Colombo Design cura i suoi prodotti, con gli stessi valori e le medesime tradizioni, per fare di ogni ambiente una casa, senza scendere mai a compromessi sull'autenticità. Un manifesto contemporaneo dell'essere creativi, curiosi e sperimentali.

handles with care

Just like a family that handles its members with love and care, Colombo Design cares about its family of products and its production with the same values and traditions to make of any place a home, never accepting any compromise to quality and function, individuality and authenticity. Bonding heritage with creativity, curiosity and innovation.

Mission.

la qualità sensibile

Intraprendere un'impresa nel terzo millennio.

Infondere entusiasmo ai collaboratori, convinti che il fattore umano sia condizione essenziale al progresso aziendale.

Produrre secondo criteri di eccellenza nelle varie fasi di lavorazione per offrire prodotti garantiti.

Rinnovare costantemente impianti e procedure per precedere i rischi dell'obsolescenza. Questi i requisiti di Colombo Design, leader mondiale nella produzione di maniglie, presente in 93 paesi nel mondo attraverso una fitta rete di agenti e distributori. Una realtà solida, nata nel 1991, che si estende su una superficie di 100.000 mq, di cui 25.000 mq coperti, a Terno d'Isola in provincia di Bergamo.

discerning quality

Creating a business in the third millenium.

Motivating staff by recognising that human resources are essential to the company development.

Achieving manufacturing excellence at every stage of production so that products may be guaranteed.

Continuously updating machinery and manufacturing procedures in order to maintain quality levels in harmony with our environment. These are core principles of Colombo Design, world leader in the production of door handles, present in 93 countries worldwide through an extensive network of agents and distributors. A solid reality, founded in 1991, based in Terno d'Isola, in the province of Bergamo, with an area of 100,000 square meters, of which 25,000 sqm are covered.

Environmental approach.

Lo sviluppo è sostenibile se soddisfa i bisogni delle generazioni presenti senza compromettere le possibilità per le generazioni future di soddisfare i propri bisogni.

(Brundtland Report, United Nations, 1987)

è tempo di green made

Green Made significa pensare, progettare e produrre in armonia con l'ambiente.

Green Made: perché In una economia globale assume un ruolo sempre più importante la protezione delle risorse disponibili ed in particolare lo studio degli aspetti ambientali legati alle diverse attività produttive. L'aumento dei consumi delle risorse non rinnovabili (i minerali ed i metalli come pure i combustibili fossili), dovuto alla costante crescita della popolazione mondiale, impone standards di produzione che privilegino la conservazione delle risorse disponibili. I nostri processi produttivi sono frutto di una globale attenzione alla tutela dell'ambiente.

La gestione accurata di questi processi ha portato, tra le altre cose, all'ottenimento della certificazione UNI EN ISO 14001 «Sistema di gestione ambientale certificato».

Green Made: il valore Ogni singola fase di progettazione e produzione è attentamente analizzata sotto il profilo dell'impatto ambientale ed ogni scelta successiva dettata dal raggiungimento degli obiettivi di eco compatibilità. Così durante la produzione vera e propria, saranno le più avanzate tecnologie appositamente sviluppate ed i più severi controlli, effettuati da personale qualificato, a garantire Green Made by Colombo Design: un prodotto nato con il pensiero costantemente rivolto all'ambiente.

Sustainable development is development that meets the needs of the present without compromising the ability of future generations to meet their own needs.

(Brundtland Report, United Nations, 1987)

it's green made time

«Green made» means thinking, developing and manufacturing in harmony with our environment.

Green Made: why Protecting our resources is more and more important in a global economy, and in particular paying attention to reflections of manufacturing onto the environment. Increase of consumptions of non-renewable resources (minerals, metals and fossil combustibles) due to increase of population, imposes manufacturing standards which privilege conservation of the available resources and raw materials. Our production processes are the result of a total attention to environmental protection. By the accurate management of these processes we obtained the UNI EN ISO 14001 certification «Certified environmental management system».

Green Made: values Each design and production step is carefully checked with regards to the environmental impact and each following decision is taken if our eco-compatibility objectives are fully reached. This means that when we manufacture our products, the Green Made concept by Colombo Design will be guaranteed by the advanced technologies and very strict controls carried out by a very highly qualified personnel, generating a product conceived constantly thinking of the environment.

Certifications.

UNI EN ISO 9001

Sistema di gestione certificato da ICIM

Questa certificazione è valida per il seguente campo applicativo:
Progettazione e fabbricazione di maniglie, complementi per arredamento e di accessori per l'arredo del bagno in materiali non ferrosi.

Certified management system by ICIM

This certification is valid for the following application field:
Design and manufacture of handles, furniture coordinated accessories and bathroom furniture accessories in non-ferrous materials.

UNI EN ISO 14001

Sistema di gestione certificato da ICIM

Questa certificazione è valida per il seguente campo applicativo:
Progettazione e fabbricazione di maniglie e complementi per arredamento in materiale non ferroso, accessori per l'arredo del bagno mediante le fasi di: pressofusione, burattatura, pulitura, galvanica, verniciatura, assemblaggio, confezionamento ed immagazzinamento.

Certified management system by ICIM

This certification is valid for the following application field:
Design and manufacture of non-ferrous handles and coordinated furniture accessories, bathroom furniture accessories by: die-casting, tumble finishing, polishing, electroplating, varnishing, assembling, packing and storing.

UNI EN 1906:2012

Nuova certificazione europea per le maniglie

La norma Europea UNI EN 1906:2012 stabilisce requisiti e metodi di prova per maniglie e pomoli.
Colombo Design ha conseguito, per tutti i suoi modelli, lusinghieri risultati tra i quali il più significativo è il "Grado 4" per la categoria d'uso: sinonimo di assoluta qualità e resistenza.

New European certification for door furniture

The European standard UNI EN 1906:2012 establishes requirements and test methods for lever handles and knobs. Colombo Design achieved, for all of its models, excellent results between which the most significant is the "Grade 4" for the category of use: synonym of absolute quality and resistance.

Warranties.

trattamento di protezione garantito 30 anni

Quello utilizzato da Colombo Design è un processo di finitura mutuato dal settore dell'utensileria, in cui caratteristiche fisiche e meccaniche sono studiate per garantire prestazioni eccezionali di resistenza all'usura meccanica e al decadimento dovuto ad agenti ambientali e chimici. Il processo è stato messo a punto per garantire un notevole aspetto estetico, trasparenza e lucentezza, che fanno risaltare il design del prodotto. Tutti i prodotti trattati con il processo PVD, vengono preventivamente rivestiti con strati di rame, nichel e cromo per garantire un perfetto isolamento della materia prima sottostante. Trattamento con la garanzia di "30 anni" sulle finiture **Zirconium Gold, Oromat, Zirconium Stainless-Steel, Vintage, Vintage Mat, Grafite e Grafite Mat.**

trattamento di protezione garantito 10 anni

La lunga esperienza maturata nel settore dei trattamenti galvanici e PVD, unita alla scelta di prestare particolare attenzione alla qualità nei processi produttivi, consentono a Colombo Design di garantire le finiture dei suoi prodotti oltre la normale copertura prevista dalla legge. È quindi con particolare orgoglio che offriamo ai nostri utenti la garanzia di "10 anni" sulle finiture **Oroplus, Cromo, Cromat, Biancomat e Neromat.** Questo impegno di durata nel tempo del prodotto è la nostra forte ed alternativa risposta al consumismo «usa e getta», sinonimo di spreco ambientale e nemico della memoria collettiva, irrinunciabile valore di tutte le società.

treatment protection guaranteed 30 years

Colombo Design uses a finishing process borrowed from the tools industry, where physical and mechanic features have to guarantee a very high performance as far as mechanic wear and decay due to environmental and chemical agents are concerned. This finishing process also guarantees a high level of design where transparency and brightness allow the product to reveal. All PVD-treated products with High Protection System finishing are previously coated with layers of copper, nickel and chrome in order to guarantee the perfect insulation of the underlying raw material. Treatment with warranty of "30 years" on **HPS Zirconium Gold, Matt Gold, HPS/I Zirconium Stainless-Steel, Vintage, Vintage Mat, Graphite and Matt Graphite** finishing.

treatment protection guaranteed 10 years

The long experience in the field of galvanic treatments, combined with the choice to pay special attention to the quality in production processes, enable Colombo Design to ensure the finishes of its products beyond the normal warranty provided by law. It is therefore with great pleasure, we offer to our end-users the warranty of "10 years" on **Oroplus, Chrome, Matt chrome, Matt white and Matt black** finishings. This commitment of product durability is our strong and alternative response to consumerism «disposable», synonymous with environmental waste and enemy of collective memory, an essential value of all societies.

Innovations.

SIX MILLIMETERS CONCEPT

Maniglie con rosetta e bocchetta bassa che non necessitano di lavorazioni aggiuntive sulla porta.

Handles with slim rose and escutcheon. They don't need additional installation works on the door.

ROBOTECH®

Robotech® contraddistingue una gamma di prodotti realizzata utilizzando alta tecnologia e massima automazione per ottenere eccellenza qualitativa e commerciale.

Robotech® is our mark for those products manufactured using high technologies and ultimate automation, to create quality and trading excellence.

CASA SICURA

La soluzione per vivere in una casa sicura. Se vuoi avere la sicurezza di vivere in un ambiente tranquillo e sereno, affidati al sistema antintrusione di Colombo Design!
Il pulsante blocca maniglia ne impedisce la rotazione, di conseguenza i malintenzionati non riusciranno più ad entrare nelle vostre case passando dalle finestre e dalle porte finestre.

SAFE HOUSE

The right solution for a safe house. If you're looking for a safe feeling while being in your home, you should use the Colombo Design Security System! The button locks the handle preventing the rotation, so bad people won't be able to enter your house, not via the doors nor the windows.

L'agricoltura è la regione di uno degli utilizzi più avidi del nostro liquido più prezioso. Al giorno d'oggi per ovunque può distendersi per cento del consumo d'acqua negli Stati Uniti è impiegato all'agricoltura. La scelta di convertire terre selvagge ma aride in zone di coltivazione intensa ha inevitabilmente provocato un sovraffaticamento delle riserve d'acqua, che purtroppo non è compensato dal ciclo naturale di ripristino suggerito dalle piogge. La situazione in California è particolarmente grave per la siccità che non dà segni di remissione e per la lunga storia di approssimativamente continuo e scriteriato nei decenni passati. L'Imperial Valley, una regione agricola attraversata dall'All-American Canal, seguita ad arricchire da questo canale artificiale, per un irrigazione a getto dei campi sofferenti.

Èva Juso di Borzovsky è andata a fotografare anche un altro tipo d'innaffiamento molto fotografico per gli insediamenti di irrigazione che si creano nel paesaggio e particolarmente utilizzato in Texas. È l'irrigazione a pivot centrale, che richiama lo spreco d'acqua per la sua estrema efficienza nella distribuzione e delinea cerchi magici sul terreno. Ma è un altro tipo di acqua che c'è e sull'intelligenza di una regione di Los Angeles, nella regione di Los Angeles, si è a richiederne massima protezione della fertilità in poche (Mogosa) luoghi in cui la biosfera per legge.

IRRIGAZIONE A PIVOT N. 7

Le tracce del Maestro The Traces of the Master

Kinue Horikawa

Gli schizzi di Angelo Mangiarotti sorprende: all'origine di ogni progetto di design o un'opera di scultura - ha traccia precoce delle sue prime impresse a qualunque genere di realizzazione, realtà perfettamente congruenti con volte ancora più che le fotografie dei schizzi a rivelare fedelmente l'afflato con il quale ha ispirato l'idea stessa dell'opera. Fatalmente, nel corso della sua realizzazione subisce una serie di modifiche attribuite a committenza, a motivi economici o a esigenze tecniche. Com'è ovvio, non a questa norma molte opere di Mangiarotti subiscono subito anche modifiche in fase di progettazione. Malgrado tutto, la stretta vicinanza tra le prime intuizioni abbozzate negli schizzi e le realizzazioni finali può non essere ascritto all'eccezionale intuito di Mangiarotti, ma al fatto che, in ogni situazione, Mangiarotti prevedeva chiaramente un profilo di sviluppo per non snaturare il progetto originario. Gli schizzi dei progetti architettonici e di design, ma rivelano altresì un'attenzione particolare per i dettagli strutturali e per le modalità di costruzione della fabbrica. In ogni occasione, a ogni fase, dedicava la propria attenzione in maniera particolare alla maggiore esattezza e concretezza con la quale realizzare in pratica la propria idea. Mangiarotti aveva in mente per realizzarlo computando la curva, tracciata con apparente noncuranza, ma che in realtà era una linea precisa, per gli schizzi degli oggetti di design e della realtà tecnica, era possibile la loro realizzazione all'atto pratico eseguita con tutta la cura e la precisione dei materiali adoperati. Si tratta di una logica che si giustifica anche in termini di costi, ma che fa comprendere come egli abbozzasse i suoi schizzi e calcolando all'istante, in modo tale da poter realizzare la sua opera un'identità unica. Per Angelo Mangiarotti gli schizzi erano a

DOMINICO MERLINI

trasformazione dal "tum" delle bombe al boom
dei "cane" a dalle macerie ai grattacieli. Il 1953
è l'anno del arrivo dei migranti. In "Napoleoni"
a Milano di Edoardo De Filippo e Siamo tutti
milanesi di Mario Landi.

Ma non è solo questo. Nel trionfo del registro
comico, funorismo ambrosiano e meno immediato di
quello napoletano o romano, il suo stesso dialetto
- spesso poco considerato dagli stessi milanesi
- è meno comprensibile all'uditorio nazionale
e internazionale. Sarà per questo che le commedie
di maggior successo nazionale raccontano di
fornai a Milano napoletani come Edoardo

...cattolici mentre in cinema la parassita
"Possibile" Scroggiani del cinema star vorrebbe
Roma come Dio Rio e Luciano Emmer compagni
di banco al loro Berchet.

2021 EDITION

Classic Line

MADE IN ITALY

già qualunque avesse da realizzarsi di un nuovo teatro, mentre la esecuzione esige più anni di lavoro, ed anche dopo o se ne fa di grande utilità il vecchio teatro col di minore importanza".

Vista la costante mancanza di sostegni fin l'assemblea dei condomini, sia il Comune definitivamente sul progetto del Samoggia di radunare decisamente i contenuti col limitare una volta agli interventi indispensabili.

1870, il Samoggia descrive in una lettera necessari da farsi alla platea, al palcoscenico chi e allo scalone, e il 30 aprile integra e precedenti preventivi del 1868 e del 1869. Lo stesso giorno la Giunta municipale definisce da affidare al progettista che accetta. I lavori vengono ratificati il 31 maggio 1870 dal Comune, che stanza inoltre altre 15.336 lire rifacimento delle parti architettoniche, secondo ma dei lavori di restauro indispensabili fatta dal genitore comunale Guglielmo Prosperi che ha ereditato il progetto dei Monti. L'assemblea dei condomini per conto suo, approva la spesa di Lire 35.000, alla cessione al Comune di due palchi.

Intanto la commissione per i restauri approva l'apertura del foro nella volta della platea (precedentemente negata) per alzare e abbassare la "lumiera" a petto per governare le fiaccole durante lo spettacolo per far uscire il calore e il fumo prodotti dalle lampade. Nell'estensione dei lavori, viene fatta richiesta agli eredi Conventati (proprietari del palazzo accanto al teatro), di poter incassare lo spazio, di proprietà comunale, che esiste lungo la discesa San Paolo fra il palazzo e il teatro, e di cedere o affittare due vani del palazzo da adibire a caffè. Ma è necessario a questo punto risolvere il contrasto con la famiglia Conventati per l'arbitraria chiusura di una finestra Conventati durante il rifacimento della scala, già oggetto di contestazioni dopo i lavori del 1836.

I lavori di restauro finali...

La ricerca Susanna e

Osservando le differenti versioni
dipinti risulta chiaro che, per ques
to, la tendenza di Rembrandt a real
del quadro. Una tendenza simile era
ne del dipinto *I sindaci dei drappieri*. I
da Rembrandt a priori, ma dovevano
servare. Le differenti versioni di
tappe di questa ricerca.

Il testo biblico apocrifo di uno stess
stimato signore che, durante del libro di Dani
sedeva una ricca casa con giardini, Susann
si viverano anche due anziani che rivestivano le
inamorati della bella moglie che rivestivano le
carono di nascosto da lei mentre faceva il bagno
giardino sono chiuse, nessuno ci vede e noi brucia
consentiti e concediti a noi. In caso contrario ti accusa
vane era con te e perciò hai fatto uscire le accuse
me: "Sono in difficoltà da ogni parte. Se cedo, è la mor
non potrò scappare dalle vostre mani. Meglio, è la mor
nelle vostre mani che peccare davanti a te. Se cede, è la mor
viene ingiustamente accusata e condannata a morte. Susann
zo i due vecchi vengono interrogati separatamente. S
loro colpevolezza. Il giovane è interrogato separatamente.
La prima versione del dipinto è di Susanna, è la mor
molti dei quadri a soggetto di Susanna. Susanna
suo maestro. Di quest'opera è stato fatto un dipinto
costellazione dell'opera.

LE ORIGINI TEATRALI

ALDO CASTELLANO

Le origini dello spazio teatrale moderno sono molto complesse. Si è spesso voluto indicare e in particolare nella Firenze medievale, dove, secondo Sara Mannone, furono sperimentate nel corso di un secolo le diverse forme che portarono alla messa in scena di quelle opere che, per un verso, sono fondamentali del repertorio europeo, e per un altro, sono state di ispirazione per il teatro moderno.

Un fenomeno non è mai stato un mondo chiuso in un tempo e in un luogo. Al contrario ha sempre avuto una grande permeabilità, verso quelle culture da qualunque parte provenissero e che, nel tempo, si sono fuse e ricomposte in nuove sintesi.

Il teatro europeo non è mai stato un mondo chiuso in un tempo e in un luogo. Al contrario ha sempre avuto una grande permeabilità, verso quelle culture da qualunque parte provenissero e che, nel tempo, si sono fuse e ricomposte in nuove sintesi.

Con la caduta dell'Impero romano, il teatro classico e con esso quella cultura che aveva prodotto, si estinse. Il teatro europeo non è mai stato un mondo chiuso in un tempo e in un luogo. Al contrario ha sempre avuto una grande permeabilità, verso quelle culture da qualunque parte provenissero e che, nel tempo, si sono fuse e ricomposte in nuove sintesi.

Questo fenomeno di immensa portata storico-culturale, che nel corso del Medioevo si ripeté in varie forme, si ripeté anche nel Rinascimento e nel Barocco. Il teatro europeo non è mai stato un mondo chiuso in un tempo e in un luogo. Al contrario ha sempre avuto una grande permeabilità, verso quelle culture da qualunque parte provenissero e che, nel tempo, si sono fuse e ricomposte in nuove sintesi.

Il teatro europeo non è mai stato un mondo chiuso in un tempo e in un luogo. Al contrario ha sempre avuto una grande permeabilità, verso quelle culture da qualunque parte provenissero e che, nel tempo, si sono fuse e ricomposte in nuove sintesi.

...o smart working

Le implementazioni di collaborazione sono sempre più orientate verso un modo da favorire un'esperienza esautiva e multicanale.

I trend di mercato

Michele Dalmazzoni, Collaborator & Industry Italia, ci aiuta a fotografare il mercato e a tracciare una panoramica dei trend in atto: "Osservando lo scenario delle comunicazioni aziendali è possibile identificare diversi macrotrend che in questo momento stanno avendo un particolare impatto sul consumo, con una netta predilezione per i modelli di architettura verso le aziende che stanno avvalendo soluzioni di collaborazione in Cloud per la semplicità di deployment, la facilità di eseguire aggiornamenti e la semplicità di gestione del servizio. Sono molto diffusi anche modelli ibridi, in particolare nei casi in cui sono necessarie integrazioni con infrastrutture legacy o vi siano esigenze di business".

QUALE STRATEGIA DEVONO METTERE IN ATTO LE IMPRESE PER PROTEGGERSI AL MEGLIO?

L'evoluzione digitale richiede un nuovo approccio alla sicurezza. Serve un cambio di passo, che deve essere sposato sia dal management che dai dipendenti. Per riuscire a contrastare gli sforzi continui dei criminali informatici, le organizzazioni devono includere le strategie di sicurezza nei loro sforzi di digital transformation. Devono inserirli nei piani di sviluppo e di crescita e comprendere che non si tratta di un costo, ma di un investimento.

che nel cloud. Questo approccio di condividere una threat intelligence utilizzabile in modo rapido e riduce le finestre di rilevamento e fornisce una risoluzione necessaria per gli exploit di oggi. Consente quindi più soluzioni per reagire all'unisono alla minaccia. Velocità, integrazione e segmentazione sono fondamentali per la difesa. Fortinet rivolge alle imprese dimensioni, dalle infrastrutture infatti devono essere difese, le differenze di investimento

correlata e condivisa su scala. L'intelligence avanzata di sicurezza deve essere automatizzata per ridurre le finestre di rilevamento e fornire una soluzione rapida. L'integrazione dei singoli prodotti attraverso la rete distribuita, combinata alla segmentazione strategica, contribuirà in modo significativo a combattere la natura sempre più intelligente e automatizzata degli attacchi. I dispositivi di sicurezza di legacy e isolati e una scarsa considerazione della sicurezza continuano a rappresentare un pericolo e aumentano il rischio nel panorama delle minacce odierne, poiché non forniscono visibilità o controllo adeguati. Invece, una "security fabric", un tessuto di sicurezza che copra tutto l'ambiente di rete esteso e integrato tra ogni elemento, è vitale per comprendere il panorama odierno e rispondere in continua crescita e per affrontare la superficie di attacco in

Fortinet continuano a colpire le minacce. Lo confermano le analisi dei team FortiGuard Labs del Global Threat Landscape

avversari continuano a incorporare nuove minacce e a sfruttare tecniche sempre più automatizzate in termini di velocità e scalabilità per le loro attività dannose, segmentazione e integrazione diventano elementi critici di sicurezza strategica per gli ambienti IT e OT odierni. Non esiste una strategia di difesa futura che includa l'automazione o il machine learning senza un mezzo per raccogliere, elaborare e agire sulle informazioni sulle minacce in modo integrato per produrre una difesa intelligente.

COS'È IL SECURITY FABRIC?
È l'approccio di Fortinet al tema della cyber security, è l'insieme di soluzioni per rispondere alle minacce con una piattaforma organicamente da zero, che offre un ampio set di funzionalità di sicurezza con automazione eccezionali, e l'implementazione in modo

A sculpture consisting of two golden, L-shaped handles. One handle is positioned vertically on the left, and the other is positioned horizontally on the right. They are placed on a grid of 3D cubes that create an optical illusion of depth. The cubes are drawn with charcoal and pencil, and some are filled with grey. The entire scene is set on a white surface, possibly a piece of cardboard, with a yellow border visible at the bottom right.

olio su cartone / Charcoal, grease pencil, oil on cardboard, 181 x 121 cm.

Nasce DK ZERO. Un innovativo sistema per finestra Dreh-kipp quasi ad “impatto zero”, che consente di ridurre al minimo l’ingombro della rosetta DK. DK ZERO è di semplice installazione (è sufficiente un foro di diametro 20mm), adatto all’utilizzo su infissi dotati di microventilazione e adattabile a molteplici modelli e finiture della collezione Colombo Design.

DK ZERO is born. An innovative almost zero impact Dreh-kipp window system, which allows you to minimize the encumbrance of the DK rosette. DK ZERO is easy to install (a 20mm diameter hole is enough), suitable for use on window fixtures equipped with micro-ventilation and adaptable to several models and finishes from Colombo Design collection.
